

# SURAKSHA

## A Healthcare Companion for Senior Citizens Living Alone

“Because living alone shouldn’t mean managing healthcare alone.”

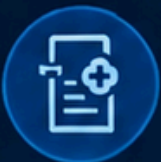

### THE IDEA

**SURAKSHA** is a unified healthcare platform designed for senior citizens who live independently. It keeps their **medical history** organized, helps them find **nearby hospitals**, connects them with verified **nurse assistance** for hospital visits, and provides **emergency connectivity** with their family and healthcare support.

### ONE PLATFORM FOR COMPLETE CARE

#### MEDICAL HISTORY

Prescriptions | Reports  
Allergies | Blood Group

#### NEARBY HOSPITALS

Find relevant healthcare  
options quickly.

#### NURSE ASSISTANCE

Verified nurses for  
hospital visits.

#### APPOINTMENTS

Manage consultations  
and hospital visits.

#### EMERGENCY SOS

Instant help for family, nurse  
& emergency services.

#### SMART CONNECT

Keep your family connected  
with your care journey.

# THE PROBLEM

WHEN FAMILY LIVES FAR AWAY, HEALTHCARE BECOMES DIFFICULT.

THE MISSING LINK?

HERE COMES THE **SURAKSHA**  
A COMPLETE SOLUTION

integrated with  
your smart  
watches to trigger  
help  
during emergency

CONNECT | CARE | SUPPORT

# HOW SURAKSHA WORKS

## ONE APP. COMPLETE CARE.

Suraksha brings together all essential healthcare services in a single, easy-to-use platform designed specifically for senior citizens living independently.

### CENTRALIZED HEALTH RECORDS

Store and access all past medical history, reports, prescriptions and health details in one place.

### NURSE ASSISTANCE

Connect with a verified nurse who can accompany and assist during hospital visits and appointments.

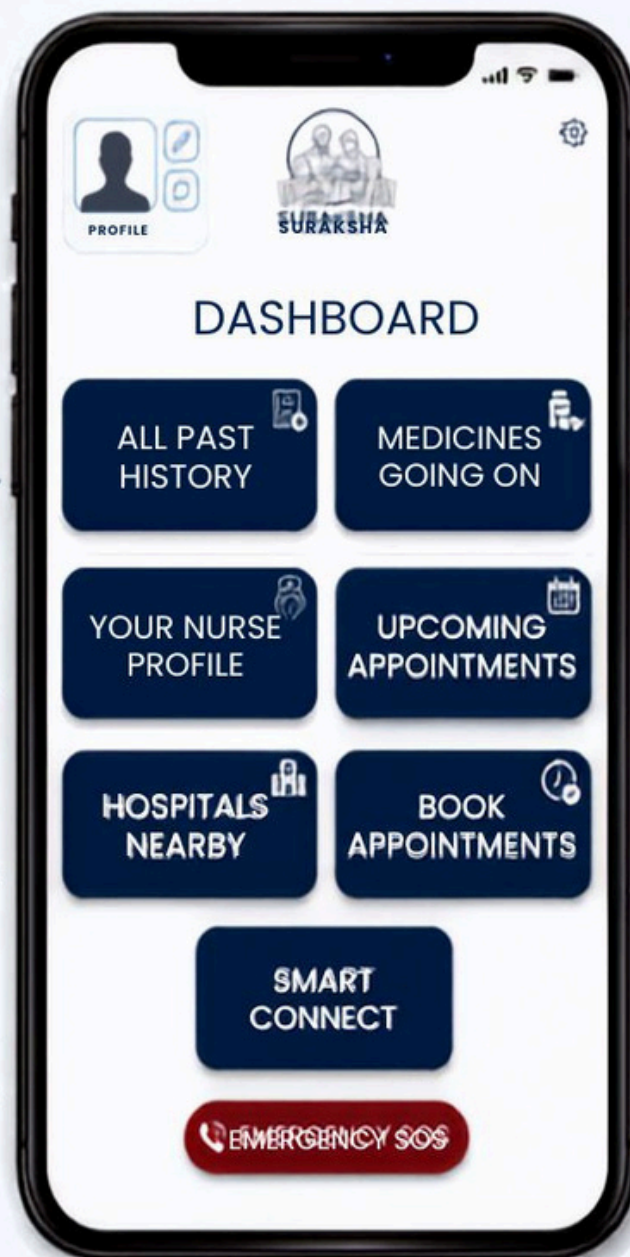

### FIND HOSPITALS NEARBY

Locate the most relevant hospitals near you based on your needs and current location.

### SMART CONNECT

Stay connected with your family and caregivers. Share updates and important health information in real time.

### MEDICINES GOING ON

Keep track of all current medications, dosages and schedules. Never miss a dose.

### UPCOMING APPOINTMENTS

View all your scheduled hospital visits, check-ups and test dates in a clear calendar view.

### BOOK APPOINTMENTS

Easily book new appointments with hospitals or doctors through a few simple steps.

### EMERGENCY SOS

Need help immediately? One tap sends an alert with your location and health summary to your family, nurse and emergency contacts.

### EMPOWERING SENIORS. CONNECTING CARE.

Suraksha ensures seniors live with independence, dignity and security while keeping their loved ones connected and informed.

# OUR APP IN ACTION

SIMPLE STEPS. SMARTER CARE.

From booking appointments to emergency alerts — SURAKSHA keeps you connected, safe and cared for.

## 1 USER REGISTRATION & PROFILE SETUP

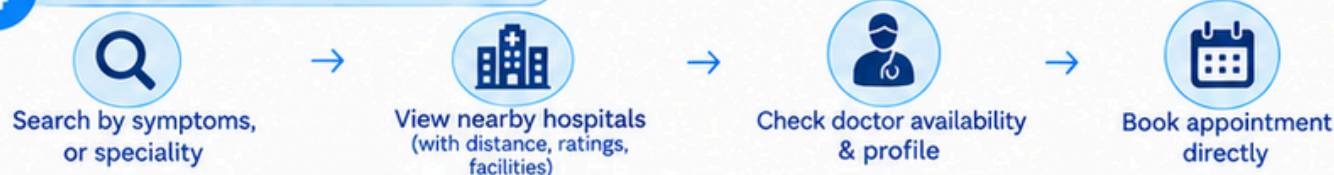

## 2 BOOK AN APPOINTMENT / FIND HOSPITALS

## 3 EMERGENCY SOS

## 4 HOSPITAL SEARCH & NAVIGATION

## 5 CONTINUOUS CARE & SUPPORT

### TECHNOLOGIES WE WILL BE USING

**Frontend**  
React Native / Flutter

**Backend**  
Node.js / Express.js

**Database**  
MongoDB

**Maps & Location**  
Google Maps API

**Health Data**  
Firebase / Secure Cloud Storage

**Notifications**  
Firebase Cloud Messaging (FCM)

**Wearable Integration**  
Bluetooth / Watch APIs

### HOW WE CONNECT HOSPITALS

We collaborate with verified hospitals and clinics to provide reliable information, real-time availability and direct booking options.

*Technology + Healthcare  
= A Safer Tomorrow ♥*

# BUSINESS IDEA

SUSTAINABLE. SCALABLE. IMPACTFUL.

Diksha Patel  
IILM University

Connecting people  
with care, and hospitals  
with opportunity. ♥

## 1 HOW WE MAKE MONEY

### Hospital Partnerships

Hospitals register on our platform and pay a subscription / partnership fee to get access to our user base, patient bookings and emergency referrals.

### Value-Added Services

- Featured listing for hospitals
- Priority placement in emergencies
- Analytics & patient insights
- Custom packages (future)

## 2 HOW WE BRING HOSPITALS ON BOARD

### Outreach & Partnerships

We approach hospitals with our vision and reliable user base.

### Easy Registration

Simple onboarding process with clear benefits and support.

### Incentives & Support

Promote their services, bring more patients, help them grow.

### Active Participation

Hospitals get listed, receive patient requests and emergency alerts.

## 3 HOW WE ENCOURAGE HOSPITALS TO PROVIDE HOME CARE NURSES & DROP SERVICE

### Hire Trained Nurses

Hospitals can send verified nurses to receive the patient from home.

### Home Treatment

Nurse provides initial care, monitoring and necessary treatment at home.

### Safe Drop Service

After treatment, the patient is dropped back home safely.

Better care.  
More comfort.  
Less worry. ♥

## 4 OUR BUSINESS MODEL SHIFT

### Initially Thought

Add a subscription for customers.

But...

### Final Decision

Add subscription for hospitals instead.

## 5 FUTURE SCOPE & CUSTOMER SUBSCRIPTION

### In the Future, We Will Add

- Health tracking & follow-ups
- Teleconsultation
- Medicine delivery
- More hospital & specialist categories
- Personalized health plans

### Then, We Can Introduce Customer Subscription

For premium features like advanced health tracking, priority support and exclusive benefits.

## 6 THE BIG PICTURE

### Users

Get timely care, safety and convenience

### Hospitals

Get more patients, visibility and growth

### Nurses

Get meaningful work and support

### Society

Builds a healthier, safer future

## OUR GOAL

To create a connected healthcare ecosystem where people get care when they need it, hospitals get more patients, and everyone benefits.
